. Footyreg.co.uk owner New Reg has been able to grow rapidly and in recent years have become a brand leader within our industry. The company has successfully re-invested the majority of our income into new highly trained staff and a wider range of exclusive stock numbers to enhance your choice even further. We employ more transfer and after sales staff than sales people, in order to ensure the swift processing of your purchase and high standard of customer care. From the moment you place your trust in New Reg they handle the entire transfer of your new reg. They coordinate the changes of all your vehicle documentation to display your newly purchased mark, such as the logbook, tax disc and even MOT if required, and return them to you within a matter of days. New Reg take pride in being the first accepted registered member of both the CNDA and MIRAD, in addition to being approved by the Office of Fair Trading Consumer Credit Department and every major credit card organisation. New Reg works with all these associations to provide an industry recognised reimbursement system in the event of transfer failure, protecting our purchasers and those whom we purchase vehicle registration numbers from. It is a fact that New Reg has sold more registrations online than any other company, facilitating additional convenience to clients who prefer not to speak to a sales person. The more traditional client may take comfort in the knowledge that New Reg sales people adopt an advisory role over the telephone, rather than aggressive sales practice.
