

## Havis Expands Docking and Cradle Offerings for Panasonic Toughpad FZ-G1 Rugged Tablets

*New series features a slimmer design to maximize space in the mobile office*

WARMINSTER, Pa. ([PRWEB](#)) January 24, 2017 -- Havis Inc., a leading manufacturer of mobile office solutions, has announced the addition of new series of docking and cradle solutions for the Panasonic Toughpad FZ-G1 rugged tablet. Havis' new [DS-PAN-710 Series](#) for the Panasonic Toughpad FZ-G1 tablet offers slimmer docking and cradle solutions for mobile offices requiring a smaller footprint.

The new solution features a sturdy, all-metal design to maximize space without sacrificing strength or tablet security. One-handed tablet docking and undocking allows for convenient and comfortable use. At 11.13" width, 9.0" height and 2.9" depth, the low profile design saves space when mounted in any mobile office, whether in a vehicle cabin, on a forklift or on a cart. Full port replication and integrated strain relief provides safe and secure cable management and connectivity to essential peripherals such as printers, scanners and keyboards. The docking station includes lock and key supplied for peace of mind theft deterrence.

Havis' [full line of Panasonic Toughpad FZ-G1 docking solutions](#) also includes the DS-PAN-700 Series of rugged, lightweight docking stations with built-in tablet charging. Havis offers a range of mounting options that allow for the Panasonic Toughpad FZ-G1 to be safely and securely docked for usage in a variety of markets and applications, including material handling, public safety, utility and transportation industries.

Havis works directly with Panasonic to develop docking and cradle solutions that create a more comfortable, safe and productive mobile office. Havis docking and cradle solutions are ergonomically designed with rounded corners and edges to maximize safety and comfort. Havis' solutions are tested to the industry's highest safety standards, including vibration and environmental testing to ensure quality performance in the most rugged conditions.
