

## Launching of Carwerks.net – A Cars, Auto Parts Website

*Car, Auto Part, Website, Launch... Softrack Technologies, the premium technology company of Pakistan in association with Drivewerks has planned to launch a new cars and auto parts website [www.carwerks.net](http://www.carwerks.net)*

([PRWEB](#)) November 25, 2004 -- Softrack Technologies, the premium technology company of Pakistan in association with Drivewerks has planned to launch a new cars and auto parts website [www.carwerks.net](http://www.carwerks.net). This new automotive parts site is a storefront of Drivewerks and will offer the entire auto parts range of the company. Faheem Ilyas, CEO of Softrack Technologies has a wide experience of developing and managing automotive parts storefronts and he believes that this site is one of the best auto parts sites for the visitors. He further added "US Automotive industry is worth trillion dollars and hence offers a great potential to the vendors of this industry. By offering new useful and convenient ways of serving the consumers of the cars and auto industry, vendors can really attract the consumers and can add value to the entire worth of this industry."

[www.carwerks.net](http://www.carwerks.net) has surely got one of the best user friendly interfaces that you can find in the auto parts sector on the net and hence, this website is undoubtedly an excellent addition to the car and automotive industry operating online.
