

## **Carleton, Inc. and The StoneEagle Group Enhance Strategic Relationship to Yield E-Contracting Solutions**

*Electronic signature solution delivers e-contracting capabilities to auto dealers, lenders, insurance providers, and aftermarket product providers.*

([PRWEB](#)) December 1, 2004 -- Carleton, Inc. and The StoneEagle Group have collaborated on numerous projects over the past several years. "Due to our similar visions and innovative product offerings, we anticipate being able to offer all of our clients a broader and more integrated service," said Pat Ruszkowski, President of Carleton, Inc.

Electronic delivery of documents is an increasingly important service that Carleton provides. By incorporating Carleton's document delivery and electronic signature capabilities, StoneEagle is providing a unique paperless solution that can interface with virtually any other software application. StoneEagle recently introduced their Electronic Signature Solution that can benefit auto dealers, lenders, insurance providers, and any other company providing aftermarket products to the automobile industry.

Currently, the Electronic Signature Solution provides data exchange capabilities with leading dealer management systems. By leveraging two-way data integration capabilities, data re-entry is eliminated and all transactions are completed more efficiently and accurately. This virtually eliminates costly re-contracting and expedites the closing of loan transactions.

"We are very excited about our continued relationship with Carleton, Inc. Their ability to provide accurate loan and credit insurance calculations bundled with their document preparation and e-signature expertise are critical elements to the types of ongoing business solutions we offer to our clients. Carleton is a valuable ally to StoneEagle as we leverage opportunities in the automotive lending arena," said Bobby Allen, President of StoneEagle.

### **About The StoneEagle Group**

The StoneEagle Group provides software solutions and enterprise administration systems that power Insurance Carriers, Service Contract Administrators, Third Party Administrators and Aftermarket Providers. StoneEagle leverages technology to create safe and secure connection points between Administrators and their Automobile Dealer, Bank and Credit Union clients, resulting in a multi-function solution suite of applications. Headquartered in Dallas, Texas, StoneEagle personnel have been involved in providing software applications to the insurance and related industries since 1967.
