

BestVINetch Supports StolenCarReports.com Program

VIN etching kit retailer BestVINetch.com supports the efforts of The Nation's Neighborhood Watch For Stolen Vehicles at <http://www.StolenCarReports.com>. BestVINetch will donate BestVINetch kits to tippers that assist police in recovering stolen vehicles.

([PRWEB](#)) December 7, 2004 -- BestVINetch, one of the nation's top retailers of vehicle identification do-it-yourself kits, is honored to contribute to the public effort to recover stolen vehicles and deter auto theft. Auto theft continues to be a vexing problem and our continuously stretched law enforcement officers need the public's help in locating stolen cars and stopping the thieves that repeatedly victimize innocent car owners. While products such as BestVINetch's do-it-yourself VIN etching kit can help to deter car thieves from taking your vehicle, once it has been stolen your best bet for getting it back is the police. The police have been aided by an innovative program designed to empower everyday citizens to identify and locate stolen vehicles for their local law enforcement agency.

BestVINetch is proud to join the respected list of other companies that contribute prizes to those volunteers in the StolenCarReports program that assist the police in recovering vehicles. BestVINetch strongly believes that the public's participation in neighborhood watch programs such as this is critical to the health and safety of our communities.
