

## **Suppose U Drive to Install Enrich - ASP to the Stars**

*Suppose U Drive becomes the latest client to integrate the enrich software solution*

([PRWEB](#)) January 13, 2005 -- Richer Systems Group Inc. (RSG) announced Suppose U Drive Truck Rental & Lease, a NationalLease Affiliate providing full service leasing and truck rental in Glendale and Norwalk, California, has committed to using the enrich fleet management system and ASP service.

The partnership will allow Suppose U Drive to fully integrate their business processes and replace multiple software systems. With enrich, Suppose U Drive will have access to all applications for every aspect of the transportation services industry from full service lease and rental operators to common carriers.

"After a number of our colleagues within the NationalLease Truck Leasing System recommended enrich, we were convinced that this system was the best solution to integrate our multiple software programs," said Justin Johnston, Vice President of Suppose U Drive. "The detailed and accurate reports generated by enrich will provide management with a strong foundation for strategic decisions and allow us to provide exceptional service to our customers."

Eric Richer, President of Richer Systems Group Inc., added, "the partnership between Suppose U Drive and enrich is an example of the flexibility of our management software solution. Suppose U Drive wanted a fully outsourced software solution - our enrich ASP service allows Suppose U Drive to focus all of their efforts on their core business while we ensure secure and 24/7 availability to their business system."

Comprehensive functionality, complete integration, and simplified IT administration are the hallmarks of the enrich software system. Customers can deploy the enrich software modules, in whole or in part, to meet the unique requirements of each enterprise.

Suppose U Drive began the enrich implementation in November 2004 and anticipates an expected go-live date of April 2005.

### **About Richer Systems Group Inc.**

Richer Systems Group Inc. is a vendor of ERP, e-commerce, and asset management and maintenance software solutions, and a provider of application services (ASP) to the commercial transportation industry. Founded in 1990, the company maintains a head office in Calgary, Alberta and additional offices in Phoenix, Arizona and Detroit, Michigan. RSG's asset management & maintenance solutions are also applicable to and have been deployed by the owners and operators of private and private-type fleets.

RSG's flagship product enrich is in use throughout North America by leading companies in the commercial transportation field including full service lease & rental, common and dedicated carriers. enrich software modules manage: financial accounting, equipment maintenance, inventories, maintenance facilities, lease, rental and maintenance contracts, trucking operations, warehouse operations, fuel and fuel tax management, payroll and human resources.
