

OnScreen Technologies, RediAlert Product Featured in January 2005 Issue of Fire and Safety Magazine

OnScreen Technologies Inc., (OTCBB:ONSC) and one of its leading products, RediAlert(TM) R.D.E.S. (Rapid Dispatch Emergency Signs), is featured in the January 2005 issue of Fire and Safety Magazine in the New Road Products section.

Safety Harbor, FL ([PRWEB](http://www.PRWEB.com)) January 15, 2005 -- OnScreen Technologies Inc., (OTCBB:ONSC) and one of its leading products, RediAlert(TM) R.D.E.S. (Rapid Dispatch Emergency Signs), is featured in the January 2005 issue of Fire and Safety Magazine in the New Road Products section. (A copy of this article can be viewed at www.FS-world.com.) The article highlights the flexibility, portability and lightweight benefits of the RediAlert(TM) sign to Fire and Safety's 15,000 paid subscribers and its on-line following.

OnScreen's RediAlert(TM) and RediAd(TM) product line provides the world's first truly portable LED signs for emergency response and outdoor advertising using the OnScreen(TM) technology. Powered and transported by any vehicle, this product line gives highly-visible emergency information or advertising messages in just minutes of set up time. It is single-person deployable, and the signage text is controlled remotely from a variety of encrypted wireless technologies.

OnScreen's CEO, John Thatch stated, "Our recent introduction of RediAlert(TM) has generated substantial interest from the media, and as a result, we continue to see an uptick in product inquiries from our target markets. We have seen that the RediAlert(TM) product, which was designed to assist Law Enforcement and Homeland Security needs for rapid deployment of emergency signs in emergency situations, can also be utilized in every day applications. The article is testament to the excitement RediAlert is creating with decision-makers in the First Responder community."

About On-Screen Technologies, Inc.

OnScreen Technologies, using a revolutionary patent-pending technology, is developing next generation LED video displays to provide communication solutions for the Department of Transportation, Homeland Security, law enforcement, emergency responders and outdoor advertising. The OnScreen(TM) technology produces LED display signs that are lighter, brighter and less expensive to install and support than current LED signs in the marketplace.
