

OnScreen Technologies Inc.'s RediAlert Will Be Featured by First Responder Trade Publications

OnScreen Technologies Inc., (OTCBB: ONSC) announced today that its RediAlert(TM) Rapid Dispatch Emergency Sign(TM) will be featured in three editorials in major national trade specific publications. The publications, "Law Enforcement Product News"(LEPN), "Police and Security News"(PSN) and "Fire/EMS Product News"(FEPN), have all chosen to write editorials on RediAlert for their monthly publications.

Safety Harbor, FL ([PRWEB](http://www.PRWEB.com)) February 12, 2005 -- FEPN has additionally selected RediAlert(TM) RDES(TM) as a front cover worthy product to feature, photograph and profile to their 40,000+ readers. FEPN is a Primedia Publication that is published bimonthly to fire fighters and first responders.

Police and Security News, a publication from DAYS Communication has a circulation of over 22,000. The readers of PSN include police chiefs, sheriffs, commanders, purchasing agents, division heads, superintendents and other middle/upper management personnel. Many consider PSN their source for valuable information to aid them in their search for the latest in equipment, services and technology. RediAlert(TM) is featured on page 63 of the January/February issue.

Law Enforcement Product News, a Cygnus Business Media publication, has built and maintained a dominate position in the law enforcement market by providing comprehensive product information and new technology updates in the industry. LEPN has a circulation of over 30,000 readers. RediAlert(TM) is featured on page 77 of the January/February publication.

"We are achieving very effective market awareness, stated Director of Marketing Nick Popa, "In the past two months alone, we've been featured in over ten national publications that cover the first responder market. The RediAlert(TM) website has seen the volume of hits increase by over 300% over the past week. RediAlert(TM) provides first responders an ideal solution for communicating visual information quickly in situations of crisis. The response we're receiving from media, at trade shows, as well as from potential customers reinforce our confidence that the RediAlert(TM) solution is accurately focused on the first responder community."

Copies of all three editorials can be found on the RediAlert(TM) website at www.RediAlert.com.

About On-Screen Technologies, Inc.

OnScreen Technologies, using a revolutionary patent-pending technology, is developing next generation LED video displays to provide communication solutions for the Department of Transportation, Homeland Security, law enforcement, emergency responders and outdoor advertising. The OnScreen(TM) technology produces LED display signs that are lighter, brighter and less expensive to install and support than current LED signs in the marketplace.
