Eden, NC ([PRWEB](http://PRWEB)) January 17, 2005 -- In a major push to become the top Internet outlet for your NASCAR news and information; All NASCAR Racing-All the Time ([www.anr-att.com](http://www.anr-att.com)) is expanding its coverage of NASCAR and all three of its major series.

Starting with the second round of Nextel Cup Testing at Daytona (Jan. 18-20), ANR-AtT will have coverage of all the action from the pits of Daytona International Speedway. This is just the first of a major push for ANR-AtT in 2005.

With live staff reporting from Daytona, ANR-AtT will have some of the fastest updates of all the happenings at the track.

The coverage at the track is just the first of many things for ANR-AtT in 2005. In addition to the reports live from Daytona, ANR-AtT will also be on the grounds at other tracks during the season to bring you all the action.

We will also have exclusive driver and team interviews, as well as inside scoop of the happenings in the world of NASCAR. Other things ANR-AtT have planned for 2005 are to host fundraisers, raffles, and local support of the home base of ANR-AtT.

ANR-AtT has also planned a partnership with the NASCAR game site Raceweek Thunder ([www.raceweekthunder.com](http://www.raceweekthunder.com)).

"I am proud of all the hard work the employees at ANR-AtT do and that it is finally being rewarded," says Matthew Blaylock Editor and Chief of ANR-AtT. "I would also like to thank all of the NASCAR fans that made the first year of ANR-AtT such a success, we could not have asked for anymore. I also look forward to helping ANR-AtT move to the forefront in 2005." (ANR-AtT's first year ended back in October of 2004 and the site had over 100,000 hits).

ANR-AtT will still have the best commentary, jokes and cartoons on the Internet, so all NASCAR fans will have one stop for all their NASCAR news and information.
