The new StockCar Review (SCR) will not only have the best bullet reporting of news and information of NASCAR's top three series; they have expanded due to fans request to have the best bullet reporting of other top stock car racing series.

SCR's expansion of series coverage includes ARCA, USAR Pro Cup and International Race of Champions (IROC) Series.

Not only has the name changed from All NASCAR Racing-All the Time to StockCar Review, the design of the whole site has changed and moved to a larger and faster server.

"I am proud that after almost two years and over 200,000 visitors to ANR-AtT, fans appreciated what we were doing and wanted more" said Matthew Blaylock Editor-and-Chief of StockCar Review. "Rest assured that the same hard work that was put into ANR-AtT will also be put into SCR, as the expansion is just the first of many great things for all of us at SCR as we continue to grow."

With the change, StockCar Review will have even more exclusive interviews, be at more live racing events, cover more series and still do all the reporting in a bullet format, and include more full length articles of the newly added series in addition to NASCAR.
