

UK Motoring News and Information :This Site is Dedicated to U.K Motoring News and Information Making the Research to Buy Your Next New Car Quick and Easy

A UK motoring and information site . Sections include car models by Manufacturer, Dealerships by Manufacturer or Town / City, Insurance Groups, and a Fuel Consumption guide for 400 current car on sale.

([PRWEB](#)) May 18, 2005 -- A list covering 50 manufacturers selling cars in the UK with each model currently on sale together with starting price , and insurance group.

Car Dealerships By Manufacturer - The following Manufacturers are covered with over 4000 dealers websites listed Alfa Romeo, Aston Martin, Audi, Bentley, BMW, Mini, Bristol, Bugatti, Caterham, Chrysler, Jeep, Citroen, Chevrolet, Daihatsu, Ferrari, FIAT, Ford, Honda, Hyundai, Isuzu, Jaguar, Kia, Lamborghini, LandRover, Lexus, Lotus, Mazda, Mercedes Benz, MG, Rover, Mitsubishi, Morgan, Nissan, Noble, Perodua, Peugeot, Porsche, Proton, Renault, Rolls Royce, Saab, SEAT, Skoda, Smart, Subaru, Suzuki, Toyota, TVR, Vauxhall, Volkswagen, Volvo.

Only dealers with a website have been listed . this will help potential buyers surf for a new or used car directly to the dealers own web sites, this means the buyer should not need to register or part with personal information while they are researching their next new or used car purchase, and can spend time looking without the pressure from sales staff

Currently there are some 230 + towns and cities covered which will continue to increase over the next 12 months and each town / city includes new main dealer franchises for new cars and used car only dealers but only those who have websites are included once again as a helpful way for researching your new or used car from the comfort of your home with no pressure from sales staff.

Insurance Groups - This section was developed to help research insurance groups that a car may fall into and therefore to provide some idea of how much the cost of insurance may be.

Fuel Consumption - With the increasing cost of petrol the amount that a car costs to use is very dependent on how many miles per gallon . Over 400 current models of car are listed and include petrol , Diesel and the new generation of more environmentally friendly cars (Hybrid) . The section is organised by Fuel consumption together with engine size, fuel type, and MPG .

Additional information that has been included on the site. A basic guide for buying a used car and an additional section on the future technology we may see in more environmentally friendly cars in the future including a brief description of Hybrid , hydrogen fuel cells, and other current and future changes we can hope to see

The news is updated weekly with information and links to new car reviews and any other subjects the UK motoring public will find informative.
