

Heavy Duty Truck Scale with Over 70 Years of Scale Design Expertise is Available at Central Carolina Scale...

Cardinal EPR series Low-Profile Pitless truck scales ... Over 70 years of scale design expertise are incorporated into these Cardinal EPR truck scales. Interlocking yoke and pin means fast, "NoBolt" assembly; easy access to load cells and wiring makes installation and maintenance a snap.

([PRWEB](#)) February 5, 2005 -- Cardinal's low profile EPR vehicle truck scale consists of modules fabricated to minimize height and maximize strength. Heavy-duty structural tubing is placed in strategic locations to support vehicle loading. Utilizing Cardinal's double-ended shear beam load cell, the EPR allows for unobstructed freedom in the weighbridge. Easy access to load cells and wiring from the sides make installation and maintenance a snap!

EPR series Low-Profile Pitless Truck Scales ... Over 70 years of scale design expertise are incorporated into these scales. Interlocking yoke and pin means fast, "No-Bolt" assembly; easy access to load cells and wiring makes installation and maintenance a snap. Installation is not only fast and easy, but also inexpensive. Select from a wide variety of popular capacities and platform sizes available in both Cardinal's checkered steel deck or the pour-in-place concrete deck models. Choose an EPR with either a concrete deck or steel deck.

Cardinal Quality ... The quality of Cardinal's products starts in the design stage. The weighbridge is created using time-tested CAD design employing high strength steel members to attain the optimum strength-to-weight ratio. Automatic robotic welders ensure strength and uniformity. Fabricated modules minimize height and maximize strength. Vehicle loading is supported by heavy-duty structural members placed in strategic locations. Sizes from 20' x 11' to 80' x 14'.

Complete vehicle weight management - Central Carolina Scale is a one-stop shop for all your weighing needs. Customize your new Ground Hugger EPR truck scale with a variety of Cardinal weight indicators, remote displays, printers, and vehicle weight management software for total control over your vehicle weighing operation.
