

America's most unique Courier Service for Washington DC and New York Metro Areas Debuts Offering Same Day Delivery for \$75 Flat Rate

Squeeze and extra day out of your work week with same day, scheduled courier service between New York and Washington DC. Same day delivery is guaranteed by 3PM with 100% on-line ordering. Priced at \$75 for packages up to 20 lbs, and a overnight service on Friday for \$25 makes this the best delivery value in America !

([PRWEB](#)) February 1, 2005 -- An innovative, unique courier service is available to help squeeze an extra day out of your work week deadlines. Designed for the ultimate in cost-effectiveness and efficiency, your package, up to 20 lbs., is dropped off at our "package portal" by 1030 AM. We guarantee it to be available for pickup by 3PM the SAME DAY at the destination portal.

Washington DC to New York City's startup schedule will be Monday-Wednesday and Friday, and New York City's schedule is on Tues & Thursday. There is a special Friday service overnight for New York to Washington DC only for \$25.00 which is available Saturday or Monday morning if you prefer.

The service is designed so that NO public transportation, airlines, or outside contractors are used to deliver your packages, significantly reducing the chance for loss or delay.

There are many uses for the service in today's post 9-11 world of airline and shipping delays.

For instance if you miss your Next Day delivery deadline, or just need an extra day to complete a bid, proposal, testing, court document, design or report, you can still get your critical delivery there on time.

You could use the service to send a last minute gift or show ticket to someone, or hold on to your cash an extra day and still get payroll and accounts payable out on time.

If you use a local courier to have your package dropped off at our portal and picked up, you still save over 400% compared to the alternatives!

For complete details and information visit: www.samedayny.com or www.samedaydc.com
Fully insured and bonded.
