

Red Line Performance & Restoration, Opens Revolutionary New Website

The only site on the web to offer both an auction and a classified section all on the same site.

([PRWEB](#)) February 11, 2005 -- We're in the final stages of opening our new automotive website, it offers auctions and a classified section all on the same site. hot-rod-harry.com will start a whole new way of buying and selling cars, tools, equipment and anything automotive related on the web.

The new site specializes in automotive only, and this is one of the key factors that makes it a revolutionary new site. It's our goal to help the automotive world all we can, and this is a great way to do just that. We've been in the automotive business for the past 20 years and we realize that it can be difficult to sell car and equipment on the web, or in a brick shop, and we're trying to offer the best way to get it done on the web.

At American Relics we've based our whole lives on the automotive business, and we know what you face. Our whole business is to make it easier for you to do business on the web, come and visit the new site at <http://hot-rod-harry.com>.

You'll be glad you did.
