

New York Party Shuttle Now Offers Tours of New York City

New York's Most Comprehensive 6-Hour Sightseeing Tour is now operating daily from noon to 6pm in Manhattan.

New York City, NY ([PRWEB](http://www.prweb.com)) February 15, 2005 -- New York Party Shuttle announces its Comprehensive 6-Hour Sightseeing Tour in New York City. The tour itinerary is laid out at http://www.newyorkpartyshuttle.com/new_york_tour.htm

What sets this tour apart from Gray Line and other competitors is that passengers are not left to their own devices at each landmark. The New York Party Shuttle tour guides get off the bus with the passengers and escort them to each landmark, providing historical, architectural, and other fascinating information about each site. The Statue of Liberty, Empire State Building, World Trade Center Memorial Site, the United Nations Building, and all of the other premier sites in New York City are included.

Because the New York Party Shuttles are smaller than motor coaches and the "double-decker" bus, customers get more interaction with the tour guide. This results in a more educational, entertaining, and enjoyable tour.

New York Party Shuttle Tours also offers private tours of New York City that are surprisingly affordable. 3-hour morning and night shuttle tours are available for those who just want to see the main landmarks. A private walking tour is available, and includes a free one-day subway pass. New York Party Shuttle also offers private tours in a 15-passenger van. For smaller groups, this option is more comfortable and more efficient. All of the above private tour options are available in multiple languages. Spanish, French, Italian, Portuguese, Japanese, and Chinese are the most common foreign language tours.

The daily comprehensive 6-hour tour is the newest addition to the New York Party Shuttle lineup. Customers are raving about the tour because it provides an alternative to the "hop-on, hop-off" tour where you pay for a tour guide but then spend most of your time on your own or waiting for the next bus. "Having the tour guide exit the shuttle at each landmark and accompany the passengers makes it an actual tour, rather than just a bus ride," says Robert, one of the tour guides. "The customers love that and the smaller shuttle," he added. Another advantage of the tour is that there is a cooler on the shuttle with iced-down soft drinks and bottled water--free to customers.
