

tCtunerZ.com Launches Live Video Feed of Scion Exposed

The all-new Scion tC comes equipped with a ton of options and, most notably, the support of the newest online tuning resource that aims to stream video to every Scion Dealership in the country, tCtunerZ.com.

Irvine, Ca ([PRWEB](#)) February 15, 2005 -- The tCtunerZ Tour is the first multi-state event featuring the Scion Automobile. The tCtunerZ Tour is a one-day event on March 26, 2005 with two legs, one starting from Atlanta, Georgia to Daytona Beach, FL and a second Hollywood, FL to Daytona Beach, FL trip through the southeast. With over 600 miles and stops at participating Scion dealerships and started as a caravan to the Daytona Beach Scion Exposed event has turned into a full-force East Coast Scion Invasion.

There are also a wide range of options available from Toyota Racing Development, or TRD, such as a supercharger, exhaust, 18" wheel and tire package, performance clutch, lowering springs and more. Thanks to the foresight of Scion, consumers will be able to customize their new tC before it's driven off the lot and see it done live on the Internet for the first time.

Before purchasing any car, people will want to research and find out as much as they possibly can about it and just about anything having to do with it. Because the car was just made available to the public, there weren't any sites devoted entirely to the tC to speak of. With a web site like tCtunerZ.com, owners and enthusiasts can learn more about the car find support for maintenance and repair needs, speak with a knowledgeable staff that has extensive tC experience.

September 8, 2004 marked the grand opening of tCtunerZ.com and has the largest registered users and visitors for any Scion tC web site on the web, so stop by, add us to your favorites (bookmark) and make us your start page. Everybody is welcome to join to look under the hood.

About tCtunerZ.com

Realizing automotive enthusiasts' need for a portal devoted entirely to the Scion tC, tCtunerZ.com offers a valuable resource to anybody wanting to purchase this new car, or simply wants to learn more about it. Straight to the facts and actually testing out every aftermarket option for the vehicle on the market.
