([PRWEB](#)) February 20, 2005 -- Did you know that you can purchase seized vehicles at auction for huge discount prices 100% legally. You see every day thousands of these autos become Government and Bank Property through various seizure and surplus laws. As the Government pay nothing for these cars they can sell them at any price they wish. The constant exchange of vehicles and the enormous expense to store them, means amazing deals and guaranteed rock bottom prices for you! As Much as 80% - 90% OFF!

So if this is the case why isn't everybody buying a car this way ? Good question. The simple answer to this is that it is a very protected source of revenue for the majority of car dealerships and is not advertised to the general public. The simple fact is that many people don't have any idea that they can purchase vehicles this way so they lose money by paying highly-inflated prices to car dealerships. Lots of consumers think these auctions are only available to licensed dealers because they're not advertised. Car dealerships obviously aren't going to tell you about it, but here at <http://cheapcarauction.1st-in-bargins.com> our members can get access to the direct sources where they can literally find a vehicle for 10 cents on the dollar.

The internet has changed the way auto auctions are done, increasing the ease of access for the public. There are a number of government seized auto auctions being conducted online and you can save money right from your own home. Auctions are held in every state across the nation!
