

Truckersoft.com Rolls Out Next Generation Load Board

Truckersoft's new load board to raise the standards in the industry and help save on raising transportation costs.

Dubuque, IA ([PRWEB](#)) March 5, 2005 -- In an age where load boards are popping up like wild fires, it is a challenge to find the right one to meet all the needs of the trucking industry. Truckersoft.com, a company from Dubuque, Iowa, is rising to meet those challenges.

Truckersoft.com is a "full service load board" says Truckersoft's Vice President of Operations, Rick Schwebach. "Our industry exclusive paperless broker/carrier packtes will vastly improve office simplicity and productivity." Along with these features, members have access to trucking related databases as well as being able to promote their own companies with unlimited classified ad and banner links. Truckersoft is committed to providing accurate user-friendly information.

Other load boards offer limited services for prices ranging from \$20.00 dollars a month to hundreds even thousands, depending on the size and needs of your company. Truckersoft offers a set monthly fee under \$20.00 for each location regardless of the number of users. Schwebach says "Truckersoft is ahead of other load boards with the services it offers. We have a strong idea as to where the industry is headed and plan on being there to pave the way."

Truckersoft is already planning it's next generation roll out for sometime later this year. One that company officials are extremely excited about.
