

Elegant Comfort Spa2Go-4-RVs

Elegant MotorCoach, with its exclusive new website, ElegantMotorCoach.com, has introduced a special new product being welcomed by the RVing community. It is the Spa2Go, marketed under Elegant MotorCoach's trade name: Elegant Comfort Spa2Go-4-RVs. This is the world's most attractive and inflatable, portable spa which can easily be stored for RV use. This is the first time an RVer can take a spa with them and not surrender valuable space on-board to do so, since it packs away into less than 2 ft. It will go wherever you go! says Larry Marshall, the on-line boutique's CEO.

(PRWEB) March 6, 2005 -- Elegant MotorCoach, with its exclusive new website, www.ElegantMotorCoach.com, has introduced a special new product being welcomed by the RVing community. It is the Spa2Go, marketed under Elegant MotorCoach's trade name: Elegant Comfort Spa2Go-4-RVs.

This is the world's most attractive and inflatable, portable spa which can easily be stored for RV use. This is the first time an RVer can take a spa with them and not surrender valuable space on-board to do so, since it packs away into less than 2 ft. It will go wherever you go! says Larry Marshall, the on-line boutique's CEO.

He adds: It takes only 10 minutes to inflate with an attached motor and fills with 250 gallons of water using a simple garden hose. With its built-in heater and filter, it will heat to 104 degrees and keep water sparkling clean.

Its invigorating, newly patented, 127 microjets provide vigorous, whirlpool action to soothe tired muscles and rejuvenate your whole body. Great after a long day's drive in an RV. With its almost 7 ft. diameter when inflated, it's ample space for 2-4 adults.

The Elegant Comfort Spa2Go-4-RVs has become one of the company's most popular items for personal use, as well as for entertaining guests.

RVers are buying it for their motorhomes and you may already be seeing them at campgrounds, lakes and beaches. But many are also bringing them home, too, for use on their home patios, lawns and backyards.

It has an attractive, radiant blue color and is very sturdy, built from the same K80 vinyl as whitewater rafting boats, so it's extremely durable. It's rated to use 15 amps, yet it's so efficient that it actually draws only 9 amps, and uses only 110 volts.

Since it will replace an expensive permanent, hard-shell spa costing several thousands of dollars and requiring complicated, costly installation (usually a new and expensive 220 volt line), it's an excellent long-term RV lifestyle enriching investment. While the regular price is \$1,299, it is very affordable, especially with Elegant MotorCoach's Special Introductory Price of only \$899.

Larry & Joy Marshall, owners of this novel E-commerce company, Marshall Ecommerce, LLC, are themselves active RVers and have personally researched and selected Fun & Functional RV Lifestyle Toys-4-Big

Kids to enhance the lifestyle adventures of other fellow RVers.

To introduce RVers to its new venture, which began last March, 2004, most items are currently being offered at Special Introductory Prices and interested readers may view them at www.ElegantMotorCoach.com or call the Marshall's for more information: 888-488-3121.
