

DriverTrak.com Selects all Headline News to Provide Live News, Headlines and Content

DriverTrak.com uses real-time headlines and content delivery from All Headline News to keep truck drivers informed and entertained while on the road.

([PRWEB](#)) March 21, 2005 -- All Headline News Corp, a leading provider of news, financial and content, has announced that DriverTrak.com has selected All Headline News to provide news and content for use at www.drivertrak.com

"We selected All Headline News to provide industry specific news to our community based on the quality of headlines provided and the variety of content available." states James McKee, Executive Vice President.

All Headline News helps DriverTrak.com by delivering live, real-time headlines, market and financial indexes, daily horoscopes and other content to it's members. The All Headline News system allows DriverTrak.com to have the content that they need, in an easy to use format designed for rapid deployment.

"For dynamic member communities like DriverTrak.com, news and content is an absolutely critical component and allows for a complete and satisfying member experience. We're proud that DriverTrak.com has selected All Headline News for it's content needs." said W. Jeffrey Brown, CEO of All Headline News Corp.

About DriverTrak.com:

DriverTrak.com (<http://www.drivertrak.com>) is the fastest growing community of Truck Drivers on the Internet. They have developed a targeted portal to give truck drivers and their families a place to call home. Everything from news, jobs, chat, games, great driving opportunities and much more are available to members free of charge.

About All Headline News Corp.:

All Headline News Corp. (<http://www.allheadlinenews.com>) is a privately held, leading news portal and aggregator of news and headlines. The company's systems search and index thousands of websites for news and information that is categorized and distributed as live headline links to the original sources. The company's content syndication and distribution services are used worldwide in portals, websites, charities, governmental entities, educational institutions and other organizations.
