

## **GM Shares Poised To Gain Says The Woodyard Trader Report**

*Previous Listings Show More Than 90% Success Rate*

Dallas/Fort Worth, TX ([PRWEB](#)) April 1, 2005 -- RD Woodyard Inc. announced today that shares of General Motors (GM) are indicated "Up" in the most recent Woodyard Trader Report. RD Woodyard's exclusive PriceSelector program today listed General Motors (GM) as well as Sprint Corp. (FON), ConAgra Foods Inc. (CAG) and Cryolife Inc. (CRY) as having met all the criteria that indicate an imminent price reversal may be at hand.

The PriceSelector program analyzes data over a period of time to identify stocks that are about to change direction, says David Woodyard, founder and President of RD Woodyard Inc. A more detailed description of that process can be found at [www.rdwoodyard.com](http://www.rdwoodyard.com). And the historical rate of success has been amazing. That's why, over the next few days, we will continue to release the names of those companies listed as "Up" in the current Woodyard Trader Report. We invite traders to track the success of our listings.

That success can be measured by looking at the recent performance of The Woodyard Trader Reports. Nearly 93% of all stocks listed in January 2005 were called correctly after two months.

That's an almost unbelievable rate of accuracy, and in line with the performance we've seen month after month, says Woodyard. While we can't guarantee that shares of General Motors or others listed in our reports will rise in the near future, the performance of previous listings suggests these are stocks not to be ignored. We always encourage traders to be prudent and to do their homework.

RD Woodyard Inc. prepares reports designed to narrow the field from thousands of investment options to just the few worthy of investment consideration. The Woodyard Trader Report is a daily listing of stocks that show the signs of an imminent price reversal. The Woodyard Stock Report is a weekly listing of stocks geared to long-term investors. Both reports are available to individuals and businesses by subscription only. Further information can be found at [www.rdwoodyard.com](http://www.rdwoodyard.com).
