

## **FindAHauler.com Adds Free Horse Transportation Quote Service**

*FindAHauler.com has added a service for getting competitive bids for horse shipping. This free service allows anyone that needs to ship a horse an opportunity to place an RFQ (Request for Quotes) in one place and receive competitive bids from several haulers. This often results in a significant cost savings for the shipper, while allowing horse transport companies a central media for getting new business.*

([PRWEB](#)) April 4, 2005 -- Hundreds of horses are sold every day on the internet. The largest horse classified sites have millions of visitors per month, and there are hundreds of thousands of horses for sale at any given time on the internet. The single most common factor in successfully selling a horse online, is the ability to get it to the buyer quickly, safely, and inexpensively.

When Janet Williamsen - founder of DreamHorse.com - one of the largest horse classifieds sites on the internet learned about FindAHauler.com she said, "We are always getting requests from customers on finding a hauler... our customers will be very happy".

FindAHauler.com's "Horse Transportation Matching" service allows buyers and sellers of horses to quickly get quotes and shipping schedules from multiple haulers, allowing more sales to get done.

Horse transportation companies are able to bid on jobs posted to the website. Due to various marketing partnerships with leading classifieds sites like Equine.com, DreamHorse.com HorseCite.com and HorseWanted.com the jobs posted are typically unique to FindAHauler, since horse owners come directly from these sites to place RFQ's bypassing search engines, and magazine ads.
