In addition, in depth area guides also accompany this car hire guide.*

Puerto Banus, Spain ([PRWEB](http://PRWEB)) April 5, 2005 -- [Spanish Property World](#) , today launched it's unique guide to [renting a car in Spain](#).

From the basics of choosing a [car hire company in Spain](#), for your holiday or business trip to Spain, to picking up your rent a car from any [airport in Spain](#) , it's all laid out in detail.

Discount Car bookings options are available from [Carrentals](#) and [Holiday Autos](#).

Detailed instruction on how to find the car rentals desks of [Avis Malaga](#), [Hertz at Malaga](#), [Helle Hollis](#), [Crown Car Hire Malaga](#), [Pepecar](#), [Niza](#) and [National Atesa](#)

All the main airports are covered with some interesting advice and information available on the larger Airports. [Malaga Car Hire](#), for example is the biggest rental point for Holiday Autos but the prices are incredibly competitive.

We have found that [Barcelona Car Hire](#) is not as popular as say [Alicante Car Hire](#) or [Palma Car Hire](#) and this is mainly to do with the nature of the traveller and holidays to these different destinations. Most people head to Barcelona for a long weekend break and are happy to hop into a taxi where as when people head for the traditional holiday resorts they normally have a two week break booked and need a car to explore the surrounding areas.

Unusally both [Girona Car Hire](#) and [Reus Car Hire](#) are very popular but this can be explained by their location. Girona Airport for example is one of Ryanairs main European Hubs and has flights landing everyday from 21 different European Airports. Unfortunately the transport facilities at the airport are not that great. It is simply cheaper and easier to [hire a car at Girona Airport](#) and head under your own steam to your holiday destination.

The site now covers in detail [car hire in Spain](#)'s most popular coastal areas including the; [Costa de la Luz](#), [Costa del sol](#), [Costa Blanca](#), [Costa Brava](#), [Costa Tropical](#), [Costa Almeria](#), [Costa Dorada](#), [Costa Calida](#), [Canary Islands](#) and [Balearic Islands](#).

[Spanish Property World](#) also contains more than 10,000 [Spanish Properties for sale](#) in some of Spain's most popular coastal areas. In addition to in depth coverage of local areas, amenities, attractions and buying advice Spanish Property World also features an extensive range of New developments and Commercial property listings.
