

## **Powersport Superstore to Open Its Doors**

*The long awaited Grand Opening of Xtreme Machines near.*

MILLSTONE, NJ ([PRWEB](#)) April 14, 2005 -- Nearly three years of construction and preparation are coming together for the Grand Opening of Xtreme Machines. The Resciniti family built the business from the ground up and are excited to see the final result.

The dealership is housed within a new 34,600 square foot building built specifically to accommodate Xtreme Machines operations, and will include a state of the art service department, machine shop, and dynamometer to properly maintain, customize, and do performance work for customers.

The apparel and accessory department will have one of the largest selections of quality apparel and riding gear on the east coast to compliment the Yamaha, Suzuki, Kawasaki, and BRP products we offer. The parts department will strive to stock the parts you need now. In addition, the customer lounge will be inviting and fun with a big screen TV, vending machines and video arcade games to help make you feel at home. The meeting room is available for riding clubs to hold meetings, and rider education classes will be offered.

The impressive facilities of Xtreme Machines may prove to be a Mecca for enthusiasts in the power sport industry from all over the Northeast.

Xtreme Machines, 700 Highway 33 West, Millstone, NJ 07726. [www.xtrememachines.us](http://www.xtrememachines.us)
