

VMAC Â Vehicle Mounted Air Compressors Recognized Reading Equipment & Distribution, Inc.

VMAC - Vehicle Mounted Air Compressors that Reading Equipment & Distribution, Inc. with the Â ACHIEVE AwardÂ for Top Dealer Sales in 2004.

Bowmansville, PA ([PRWEB](#)) April 21, 2005 -- VMAC-Vehicle Mounted Air Compressors presents the staff of Reading Equipment & Distribution, Inc. with the Â ACHIEVE AwardÂ for Top Dealer Sales in 2004.

Nestled in the rolling hills of Pennsylvania Dutch country, Reading Equipment & Distribution, Inc., has blossomed into the premier truck equipment installation facility on the East Coast. Founded in 1972 by Norm Ziegler, Sr. and Norm Ziegler, Jr., Reading Equipment & Distribution, Inc. was created as a sales and installation center for Reading Body Works, Western snowplows, dump bodies, and other light and medium duty equipment. Since then, Reading Equipment & Distribution, Inc. has grown into a full truck equipment distribution and installation center with five East Coast locations, 130,000 square feet of total production space, and 75 state-of-the-art work bays. Reading Equipment & Distribution, Inc. represents literally hundreds of products, specializing in service bodies, dump bodies, snowplows, mobile hydraulic equipment, cranes, and much more including truck accessories.

Kris Ziegler, Sr., Sales Manager of Specialty Equipment at Reading Equipment & Distribution, Inc. says: Â Since becoming a VMAC dealer, Reading Equipment & Distribution, Inc. has had incredible success with the Underhood Compressor family manufactured by VMAC. Our sales people, installation technicians and our customers believe fully in the product as it continues to perform without failure under the most extreme work environments. Our VMAC customer base ranges from construction, excavation, mining, tire service, railroad, public utility, municipal/political subdivisions and even fire rescue squads. The productÂ s value is further enhanced by VMACÂ s steadfast dedication and support to its dealers. I consider VMAC to be a core product offering for Reading Equipment & Distribution, Inc. and we look forward to many years of success with this innovative and virtually trouble-free Underhood Air Compressor System.Â

VMAC engineers and manufactures 70 cfm and 150 cfm Underhood Rotary Screw Air Compressors, Throttle Controls and Specialty Air Compressor Systems at their facility in Nanaimo, BC, Canada. VMACÂ s latest revolutionary product is the 60 cfm PREDATAIR60 Hydraulic Above Deck Air Compressor Â the lightest and smallest hydraulic above deck air compressor on the market.

Reading Equipment & Distribution, Inc. consistently goes the extra mile when it comes to selling and servicing VMAC products. VMAC is proud to acknowledge Reading Equipment & Distribution, Inc. as VMAC's Top Dealer for 2004.
