

Fuel Discovery Cuts Emissions While Improving Gas Mileage Up to 35%

Scientists are calling EnviroMax Plus the greatest automotive discovery of our time. Save up to .50 cents per gallon of gas while protecting the environment.

([PRWEB](#)) April 27, 2005 -- Interworld Ventures has teamed up with Extreme Research Corporation of Dallas, Texas, who is the exclusive marketer of the newest technology in the automotive world, EnviroMax Plus.

EnviroMax Plus is a revolutionary fuel catalyst, not one of the thousands of existing additive products and gadgets already on the market.

EnviroMax Plus is used and endorsed by race car driver Johnny Rutherford, the three time winner of the "Indianapolis 500". EnviroMax Plus is one of a select few automotive products in its category to have received a US Patent. This is truly a unique product that will impact air quality and fuel economy worldwide.

This is truly a unique product which offers tremendous savings, benefits the environment and is marketed through a growing network of independent representatives currently being sought after nationwide.

Documented results of EnviroMax Plus include:

- (1) Increased fuel mileage up to 35% on both gas and diesel engines, which can save over 50 cents per gallon, or over \$10 per fill up with a 20 gallon tank.
- (2) Provides up to 80% reduction in emissions of exhaust pollutants, protecting our air and our environment. Imagine the possibility of smog free, clear skies in Los Angeles if everyone would have used EnviroMax Plus in their vehicles 50 years ago.
- (3) Saves on engine repairs and/or tune-ups by reducing engine wear and tear.
- (4) Increases horsepower and performance in all gas engines.
- (5) Will not harm engines or void any warranties.

Drivers can stop throwing away money at the gas pump and help protect the environment now and for future generations. Randy Steen, President of Interworld Ventures, an independent co-partner with Extreme Research corporation is launching a national promotion seeking representatives from all 50 states who want to stop being part of the problem, and become part of the solution.

Those interested in representing this product may visit his website at www.intrwld.myextremeresearch.com for complete details on the product and financial opportunity.
