

Law Enforcement Associates Receives Contract for Under-Vehicle Surveillance Systems That Will Be Deployed in Fallujah, Iraq

Law Enforcement Associates Corporation (OTCBB: LENF), a surveillance and security technology company, today announced that it has received an order for multiple Under Vehicle Surveillance Systems and spare parts which will be deployed in Iraq by the United States Marine Corp.

Youngsville, NC ([PRWEB](#)) April 29, 2005 -- Law Enforcement Associates Corporation (OTCBB: LENF), a surveillance and security technology company, today announced that it has received an order for multiple Under Vehicle Surveillance Systems and spare parts which will be deployed in Iraq by the United States Marine Corp. The units purchased by the Marine Corp will be used in protecting assets and personnel in and around the surrounding areas of Camp Fallujah, Iraq. Paul Feldman, President of LENF commented "Law Enforcement Associates is pleased to once again demonstrate that our UVI systems continue to be a key element in the protection of American assets and personnel worldwide." Mr. Feldman added. "Law Enforcement Associates will continue to be a leading manufacturer and supplier of Electronic Surveillance Equipment, Homeland Security Products and Less Lethal Weapons to law enforcement and governmental agencies worldwide."

About Law Enforcement Associates Corporation

Law Enforcement Associates, Inc. (LENF.OB), headquartered in Youngsville, N.C., manufactures and markets a diverse line of undercover surveillance products including a complete line of audio surveillance equipment and Homeland Security Products. LEA currently markets to the Military, law enforcement, security and corrections personnel throughout the world, as well as governmental agencies, multinational corporations and non-governmental organizations. LEA has a history of enhancing security at major events including the Summer Olympics, Democratic National Convention, Super Bowl, Winter Olympic Games and Centennial First Flight Celebration and will be a key security element for the 2005 US Open Golf Championship. The company's technology is also used as a prevention and detection solution at military bases, nuclear facilities, embassies, government installations, oil refineries, and United Nations and NATO locations throughout the world.
