Streak Away is a high-performance, plastic molded RV Rain Gutter Clip featuring fast and easy installation with no tools required where people can maintain the cleanly appearance of their motorhome RVs. Streak Away's low price point and high durability make it a must-have for RV enthusiasts across North America.

Whitby, Ontario ([PRWEB](#)) May 5, 2005 -- HUB Easy Living Products introduces a revolutionary Recreational Vehicle (RV) accessory that consumers are already expressing significant demand for. Streak Away; the only elegant solution to a showroom clean RV, is a high-performance, plastic molded RV Rain Gutter Clip that literally eliminates grimy black water streaks & stains from virtually all makes and models of motorhome RVs.

Featuring fast and easy installation with no tools required, people can maintain the cleanly appearance of their motorhome RVs. Streak Away's low price point and high durability make it a must-have for RV enthusiasts across North America.

The Elegant Alternative that fits

"Most motorhome RV owners resort to unsightly home made gadgets to keep black water streaks & stains from forming on their vehicles" says Cheryl Woitte, marketing director of HUB Easy Living Products. "In fact, many of these \$300,000 recreational vehicles sport \$0.02 clothespins to combat this very problem. The Streak Away RV Rain Gutter Clip is the answer". The Streak Away's RV Rain Gutter Clip functional, attractive design appeals to the typical motorhome RV owner who takes pride in their vehicle's appearance.

Low-cost Solution to a messy problem

Recreational Vehicle owners have been struggling with temporary, hand made solutions to the black streak problem simply because no affordable solutions exist that fit with their vehicles' design. With the purchase price of a new RV ranging from \$48,000 for type C motorhomes to upwards of \$400,000 for type As, RV owners can't afford not to purchase the Streak Away RV Rain Gutter Clip.

Installs in minutes with no tools required

Within minutes, Streak Away can be clipped onto existing RV rain gutter spouts. People no longer have to spend hours cleaning their motorhome RVs only to have black streaks reappear. The Streak Away RV Rain Gutter Clip frees up time for more enjoyable activities.

Durable, high-performance design

The Streak Away RV Rain Gutter Clips are made from durable, precision-molded plastic. Channelling the rain water that causes unsightly black streaks directly off the sides of an RV, our patent-pending rain gutter clips are designed to function while stationary and remain intact while traveling. Once installed, Streak Away's open top design prevents clogging to make for a virtually maintenance-free solution.

Environmentally-friendly solution that keeps an RV's finish intact

Each time people clean the black streaks from their motorhome RVs using abrasive soaps, they are slowly chipping away at the fibreglass and paint finish. With Streak Away, they can keep their RVs looking great while eliminating the need for and damage caused by harsh cleaning agents.

Credible product testing underway through The Good Sam Club

The Streak Away RV Rain Gutter Clip is the first of many RV accessories Hub Eazy Living Products plans to market to RV enthusiasts across North America. Cheryl Woitte also says "to ensure our products continue to exceed the needs of the RV market, we have joined forces with The Good Sam Club for product testing". An active and powerful voice for 1 million RV members in both Canada and the US, a test market of The Good Sam Club's members will be among the first to benefit from the Streak Away solution...
