

Research and Markets: UK Leading the Way in Stolen Vehicle Tracking Systems

Research and Markets (<http://www.researchandmarkets.com/reports/c20767>) has announced the addition of The Technology & Trends in Stolen Vehicle Tracking in the UK to their offering.

Dublin ([PRWEB](http://www.prweb.com)) July 15, 2005 -- Research and Markets (<http://www.researchandmarkets.com/reports/c20767>) has announced the addition of The Technology & Trends in Stolen Vehicle Tracking in the UK to their offering.

This report provides an insight into the latest market situation for stolen vehicle tracking systems available in the UK, with particular focus on insurance approved systems, including all Thatcham (Motor Industry Repair Research Centre), Category 5 approved and Q Listed tracking systems. The report includes an analysis of the impact of Category 5 and how the tracking system market is expected to change over the next few years.

It is the second edition of 'The Technology and Trends in Stolen Vehicle Tracking in the UK' report, which was first published in June 2003, and has been fully updated to include all recently launched tracking systems.

The UK is leading the way in stolen vehicle tracking systems. This report provides an insight into the latest market situation for tracking systems in the UK with a particular focus on insurance approved systems. The report includes an analysis of the impact of Category 5 and how the tracking system market is expected to change over the next few years.

The report benefits from a combined expertise in vehicle security and telematics and is essential reading for anyone interested in understanding or entering this dynamic industry.
