

Ride into the 21st Century with Drive Fresh®: The WorldÂ□s First Long Lasting Car Freshening System

Finally, a Contemporary Car Freshener that Looks Good! With a Stylish Wood-Grain Design, Adjustable Settings and Twice the Longevity of Other Fresheners

Libertyville, IL (PRWEB) May 14, 2005 Whether your car is brand new or a $\hat{A} \Box$ classic $\hat{A} \Box$, you know it $\hat{A} \Box$ important to keep it as clean and fresh on the inside as on the outside. Everyday odors from sources like fast food, cigarettes or children can make this a difficult task $\hat{A} \Box$ and although there $\hat{A} \Box$ s no shortage of car fresheners to choose from, who wants to deal with unsightly and obtrusive $\hat{A} \Box$ pine trees $\hat{A} \Box$ hanging from the rearview mirror, or messy and inconvenient spray bottles or gels? Now there $\hat{A} \Box$ s a better way: Aries Manufacturing is introducing Drive Fresh $\hat{A} \Box$ ®, a revolutionary new adjustable car freshening system that uses replaceable gel cartridges and plugs right into your vehicle $\hat{A} \Box$ s cigarette lighter/adapter.
Drive Fresh®Â \square s ability to adjust between low and high settings is, in itself, a breakthrough. But its real innovation is its compatibility with the same air-freshener refills you use at home Â \square Glade® PLUGINS® from S.C. Johnson & Son, Inc. and Renuzit® from the Dial Corporation. Though itÂ \square s packaged with its own gel cartridge, Drive Fresh® is designed specifically to be compatible with these convenient and popular replacement cartridges to give you countless fragrance options.
$\hat{A} \square$ With all the modern and stylish accessories available to drivers, it $\hat{A} \square$ s frustrating to search for a car freshener and find nothing but outdated $\hat{A} \square$ pine trees $\hat{A} \square$ and spray bottles, $\hat{A} \square$ says Tom Novak, President of Aries Manufacturing. $\hat{A} \square$ Drive Fresh $\hat{A} \mathbb{R}$ is the freshener for contemporary drivers. Even though it $\hat{A} \square$ s the world $\hat{A} \square$ s first and only adjustable car freshener, the real beauty of Drive Fresh $\hat{A} \mathbb{R}$ is that you $\hat{A} \square$ re not embarrassed to use it. The sleek wood-grain finish is a great complement to any interior, from a Mercedes to a Hyundai. It simply offers a fashionability never before seen in a car freshener. $\hat{A} \square$
Because $it\hat{A} \square s$ powered by your $car\hat{A} \square s$ cigarette lighter/adapter, Drive Fresh \hat{A} ® offers much more longevity and versatility than an ordinary car freshener. Most typically last only 20 to 30 days, and traditional $\hat{A} \square pine$ tree $\hat{A} \square$ hanging fresheners can expire after just 7-10 days. But Drive Fresh \hat{A} ® gives you about 45 days with just one gel cartridge. The wide availability of these refills means there $\hat{A} \square s$ already a huge variety of fragrances for you to choose from, and given their inexpensive nature, the life span of the Drive Fresh \hat{A} ® becomes almost indefinite.
And it $\hat{A} \square s$ easy to use: Just slide the Drive Fresh $\hat{A} \circledast$ into your car $\hat{A} \square s$ cigarette adapter and insert your favorite scent. There $\hat{A} \square s$ an easily accessible high/low setting switch combined with an adjustable sliding vent and changing the gel cartridges is simple and takes just seconds. What $\hat{A} \square s$ more, the wood-grain design complements almost any car interior, making Drive Fresh $\hat{A} \circledast$ the first real stylish alternative to traditional car fresheners.
Drive Fresh® is the first available product in a new line of auto-freshening solutions from Aries Manufacturing. Available in Woodgrain or Black with a variety of scented cartridges to choose from: New Car

Scent, Mountain Breeze, Pina Colada, Orange Citrus, Ocean Breeze, Vanilla, and Green Apple.
