

Law Enforcement Associates Receives Contract for Under-Vehicle Surveillance System for a Major U.S. Seaport

Law Enforcement Associates Corporation (OTCBB: LENF), a surveillance and security technology company, today announced that it has received its first order for its Under Vehicle Surveillance System from a major U.S. Seaport.

Youngsville, NC ([PRWEB](#)) May 19, 2005 -- Law Enforcement Associates Corporation (OTCBB: LENF), a surveillance and security technology company, today announced that it has received its first order for its Under Vehicle Surveillance System from a major U.S. Seaport.

The UVI system which was ordered is engineered to handle the weight and the heavy traffic of the large tractor trailers which move freight in and out of the ports. Paul Feldman, President of LENF commented "Law Enforcement Associates is pleased to report our first sale to a major US seaport and we intend to aggressively pursue this additional industry for our products. LEA has worked closely with security professionals within the transportation industry addressing the needs and concerns of providing visual inspections of vehicles leaving and entering secure areas such as a US seaport. Law Enforcement Associates has a proven history of enhancing security at high profile facilities worldwide."

About Law Enforcement Associates Corporation

Law Enforcement Associates, Inc. (LENF.OB), headquartered in Youngsville, N.C., manufactures and markets a diverse line of undercover surveillance products including a complete line of audio surveillance equipment and Homeland Security Products. LEA currently markets to the Military, law enforcement, security and corrections personnel throughout the world, as well as governmental agencies, multinational corporations and non-governmental organizations. LEA has a history of enhancing security at major events including the Summer Olympics, Democratic National Convention, Super Bowl, Winter Olympic Games and Centennial First Flight Celebration and will be a key security element for the 2005 US Open Golf Championship. The company's technology is also used as a prevention and detection solution at military bases, nuclear facilities, embassies, government installations, oil refineries, and United Nations and NATO locations throughout the world.
