

European Car Leather Meets High Standards of Europe's Leading Car Manufacturers: BMW Leather, Mercedes Leather, VW Leather, Volvo Leather and Porsche Leather

European Auto Leather Collection Montana, Daytona and Nappa high quality car leather for BMW, Mercedes, VW, Volvo and other high specification cars

Chobham, UK ([PRWEB](#)) June 16, 2005 -- UK Hide Ltd, announced that it is now stocking the European Leather Collection range that meets the high standards and rapidly changing needs of Europe's leading car manufacturers. Categorised by grain and divided into Montana, Daytona and Nappa, these high quality ranges are specifically produced for the automotive trimmer working with high specification cars.

The colours included on the sample selector bar are currently the most popular colours used in BMW and Mercedes Benz cars. We hold them in stock at all times but can also supply any one of up to 200 other standard colours, shades and grains used by manufacturers such as VW, Audi, Volvo and Porsche. Please contact us for a full up to date listing.

Montana Range stocked

This leather is soft and supremely supple. They are medium grain hides that are extremely versatile and hardwearing, and are mostly used in the re-trimming of BMW cars (<http://www.ukhide.co.uk/montana.html>).

We keep in stock at all times a selection of the most popular colours as shown on the sample selector bar, but can supply any one of up to 200 colours included in this extensive range. Please contact us for a full up to date listing.

Nappa Range stocked

This automotive leather is luxuriously silky with the smoothest of grains. Supple yet immensely hardwearing, it's a leather that deserves its place in the highest specification vehicles such as Mercedes, BMW and Porsche offering supreme comfort and durability (<http://www.ukhide.co.uk/nappa.html>).

We keep in stock at all times a selection of the most popular colours as shown on the sample selector bar, but can supply any one of up to 200 colours included in this extensive range. Please contact us for a full up to date listing.

Daytona Range stocked

Hardwearing and heavily textured yet supple and soft to touch, this heavy grain leather is extremely durable and is a high performance classic commonly used in cars such as Mercedes Benz (<http://www.ukhide.co.uk/daytona.html>).

We keep in stock at all times a selection of the most popular colours as shown on the sample selector bar, but can supply any one of up to 200 colours included in this extensive range. Please contact us for a full up to date listing.

About UK Hide

UK Hide supplies an extensive range of high quality modern and traditional leathers, mostly for automotive trimmers and upholsterers but also for furniture, aviation and marine applications.

Because we deal directly with the large tanneries that supply the world's Original Equipment Manufacturers (OEMs), we also have access to surplus stock and overruns so can provide quality hides at extremely competitive prices.

As the official Connolly leather distributor we hold extensive stocks of original Connolly Autolux and Autocalf hides. And through our European Automotive Collection, we provide leather for the automotive trimmer working with high specification European cars.
