([PRWEB](#)) June 23, 2005 -- Hubcaps Only! Inc. started in 1984 as a ÂMom & PopÂ 200 sq. ft. shop, has become Hubcaps.com with sales reaching world wide. Sales of factory original hubcaps dating from 1949 to current models have skyrocketed in the latest 2 years.

Hubcaps.com ships new and used factory original hubcaps, center caps and wheel covers directly to the public world wide. Free shipping is offered with every order in the continental United States.

ÂI started this company out of the back of my truck, collecting any old hubcaps I could find to add to my collection.Â says Hubcaps.com owner Rick Mefferd. ÂNow I estimate we have over 1 million hubcaps and wheel covers in inventory, some so rare that they can not be replaced.Â

Rick Mefferd travels all over the United States searching for more hubcaps to add to this vast collection as the demand for hubcaps has risen substantially each year. This year alone Hubcaps.com is on target to sell about 100,000 hubcaps total.

The biggest sellers in order are, Ford , Toyota , Honda , Volkswagen , Chevy , Nissan , Buick and Cadillac hubcaps, with women being our largest customer base. "A woman does not seem willing to waste her valuable time sorting through piles of used hubcaps in hopes of finding the exact hub cap she needs. Instead, within three clicks of the mouse, she can view a picture, order the wheel cover, and have the hubcap delivered to her door in a couple of days."
