

## **Hockenheim, Formula 1 Grand Prix, Germany. Global Internet Access with VPN and Accelerator Capabilities by International ISP Dialer.net for Visitors Worldwide**

*Dialer.net adds new VPN and Internet accelerator services to provide Fast and Secure Dialup and Toll Free Internet access in Hockenheim for the F1 Grand Prix and anywhere at anytime from more than 3 Million known locations.*

Montreal, Canada ([PRWEB](#)) July 15, 2005 -- "[ISP](#) Dialer.net provides several VPN ready access points for dial-up and Toll-free Internet connections in Hockenheim, Germany. All the spectators for the Formula 1 Grand Prix 2005 can connect to Internet and send and receive emails during the race by using all the services provided by Dialer.net international [internet access](#) service. All this thanks to their partnership with GlobalRoaming.com. <http://www.Globalroaming.com/> and Go2speed.com <http://www.go2speed.com/>.

Dialer.net's global network provides its customers international Internet roaming service, with connection in more than 160 countries i.e. Germany, France, Hungary, UK, USA. Easy and reliable connections are available by local dial-up, toll-free, WiFi or broadband for PCs, Macs, PDAs and mobile phones. In addition to the GlobalRoaming Mobile Assistant features included with every account, global "[internet access](#) is available with global SMTP that allows to send emails with existing accounts from anywhere worldwide, additional POP3 email account, global SMS service, global FAX service, Internet accelerator, VPN, no set-up fees, no monthly, annual or hidden charges and risk-free money back guarantee. Dialer.net uses a "pay-as-you-go" model, with billing per second of use and no minimum charges. To instantly activate an account, visit <http://www.Dialer.net/>.

With instantaneous access to the Internet from multiple global locations i.e. UK, France, Germany, Hungary, USA, Dialer.net services enable travelers and businesspeople to remain in contact and work efficiently when away from the home or office. Special business features are available with the Global Roaming Corporate Hosted Server, allowing companies to supply their remote and mobile employees with widespread secure Internet access at excellent rates.

For more information, or to activate an international account instantly, please visit <http://www.Dialer.net/>.
