([PRWEB](#)) July 18, 2005 -- RenaultForums is a brand new, feature-rich forum for Renault enthusiasts. Based in the UK, the service is aimed squarely at Renault owners, drivers and enthusiasts. Users can chat online about RenaultSport, ownership issues, Renault and world news or pretty much anything that takes their fancy

Renault is a hugely popular brand of car in the UK, but there is not currently a general, Renault-centric forum for users to visit. There are a number of model specific communities, as well as forums dealing with modification and tuning. RenaultForums is aimed at the Renault community in general.
