

The 2005 Assassin Motorcycle From Rucker Performance Runs Metzeler Tires

Rucker Performance Selects Metzeler Tires for their high-performance Assassin Motorcycle. Metzeler provides the best performance for the trick Assassin Motorcycle.

Fort Worth, Texas ([PRWEB](#)) July 20, 2005 -- The Assassin, the formidable American Muscle Bike, is equipped with the Metzler high-performance radial tires.

In today's custom V-Twin market form and function must work together to provide the customer the right look with comfort and safety. The ME880 series tires do just that.

"In order for the super clean Assassin to have the right look the rear tire and fender need to be as close as possible," said Chris Wall, Metzeler's Marketing Manager.

"Other tire manufacturers' tires have a tendency to give in to centrifugal growth and actually rub on the fender and damage paint. Metzeler's ME880 tires grow only 2mm at 160mph in testing due to our patented zero degree steel belt technology."

Metzeler tires utilize an Advanced Silica Compound, which reduces rolling resistance, and that increases tire mileage. The Metzler tread pattern combined with the Advanced Silica Compound increases wet grip. Metzeler provides one of the softest rides in the V-Twin marketplace due to high-quality construction materials.

"We have received an exceptional response from these performance tires manufactured by Metzler," said Bill Rucker, President of Rucker Performance. "Our customers love them. They work well in the wet and the dry and really provide the stability we need in our performance-based American Muscle Bikes and Choppers."

Buyers of Rucker Performance motorcycles can select from over 16 Weld Racing Wheels to fit with Metzler rubber. The full selection of Weld Wheels includes the new Master Builders series designed by five of the country's top custom bike builders like Eddie Trotta of Thunder Cycle Designs, Kendall Johnson of Kendall Johnson Customs, Matt Hotch of HotMatch Custom Cycles, Kim Suter of K.C. Creations and Vince Doll of Redneck Engineering.

"NHRA World Champions John Force and Kenny Bernstein win on Weld Racing wheels," said Bill Rucker. "Their manufacturing technology gives us a lighter wheel than other wheels in the marketplace. This provides us with reduced unsprung weight and better handling when utilizing the Metzler rubber."

Rucker Performance authorized dealers include American Classic Cycles in Pelham, AL, Rodney's Cycle House in Little Rock, AK, Apache Chopper in Weatherford, TX, Big Dog Motorcycles of Houston TX, Bikers Dream of Atlanta, GA, Arlen Ness Motorcycles in Daytona, FL, Arlen Ness Motorcycles in Dublin, CA, Rio Grande Big Dog Motorcycles in Albuquerque, NM, Bikers Dream in Colorado Springs and Denver, CO, Hollywood Choppers, FL and Executive Motorcycle Designs.

About Rucker Performance

Rucker Performance started production in 2004 and has quickly become a leading designer and manufacturer of custom American Muscle and Chopper motorcycles. Rucker Performance is known for ground-shaking

performance with fit and finish that is comparable to one-off custom motorcycles.
