

## Baja SAE California Set for April 27-30 in Gorman, Calif.

*SAE International's Collegiate Design Competition, Baja SAE California, will get underway Thursday, April 27, and run through Sunday, April 30, at the Quail Canyon Special Events Area in Gorman, Calif.*

WARRENDALE, Pa. ([PRWEB](#)) April 26, 2017 -- SAE International's Collegiate Design Competition, [Baja SAE California](#), will get underway Thursday, April 27, and run through Sunday, April 30, at the Quail Canyon Special Events Area in Gorman, Calif.

Baja SAE® consists of competitions that simulate real-world engineering design projects and related challenges. Engineering students design and build a single-seat, off-road vehicle that can survive the punishment of rough terrain. The vehicle is to be a prototype for a reliable, maintainable, ergonomic, and economic production vehicle that serves a recreational market.

The competition provides SAE student members with a challenging project that involves the design, planning and manufacturing tasks found when introducing a new product to the consumer market. Teams compete to have their design accepted for manufacture by a fictitious firm.

Vehicles are powered by a 10-horsepower Intek Model 19 engine, donated by Briggs & Stratton Corp.

The teams will be required to perform a series of difficult tasks, including acceleration, hill climb, maneuverability, and suspension.

SAE International is a global association committed to being the ultimate knowledge source for the engineering profession. By uniting over 127,000 engineers and technical experts, we drive knowledge and expertise across a broad spectrum of industries. We act on two priorities: encouraging a lifetime of learning for mobility engineering professionals and setting the standards for industry engineering. We strive for a better world through the work of our philanthropic SAE Foundation, including programs like A World in Motion® and the Collegiate Design Series™.
