

World Patent Marketing Rolls Out A New, Modernized Garbage Transportation Invention, The Home Refuge Container

World Patent Marketing Reviews A New Garbage Transportation Invention. Will The Home Refuge Container Be the Next World Patent Marketing Low Cost Success Story?

Miami, FL ([PRWEB](#)) November 30, 2016 -- World Patent Marketing, a vertically integrated manufacturer and engineer of patented products, introduces The Home Refuge Container, a garbage transportation invention that makes it easy to move wheeled trash cans long distances.

“The automotive accessories industry is worth \$40 trillion,” says Scott Cooper, CEO and Creative Director of World Patent Marketing. “Most consumers purchase accessories for their vehicles so growth for this industry depends on dealers embracing the right technologies for the right consumers.”

“Outside garbage cans are a convenient way to keep trash outside of the home and ready for pickup,” says Jerry Shapiro, Director of Manufacturing and World Patent Marketing Inventions. “Unfortunately, for some people, trash pickup is quite a distance away. This garbage transportation invention makes it easier to move large trash cans long distances.”

The Home Refuge Container is a garbage transportation invention that helps people move trash cans across unpaved roads. Wheeled trash cans are great for taking the trash outside, but getting them to the trash pickup area can be difficult if the road is made of gravel or grass or simply outside walking distance. This invention is a metal contraption that can be attached to the back of a vehicle that can hold up to two large trash cans at once. These two wheeled trash cans can then be easily driven over any surface without any effort on part of the user. The vehicle has more than enough power to easily get the trash cans across these uneven surfaces. This will save the user a lot of time and effort. The Home Refuge Container will make life easier for anyone taking the trash outside on uneven roads.

"This is a must have item for anyone that must move garbage/recycle totes any distance," says inventor Jens T. "It is a necessity especially if the route it is to be moved over is loose gravel, broken concrete, or grass. The wheels are narrow and do not work well on loose materials."

The Home Refuge Container is a garbage transportation invention that allows people to hook up wheeled trash cans to the back of their vehicle. This allows them to be easily moved across great distances even on uneven roads.

ABOUT WORLD PATENT MARKETING

[World Patent Marketing](#) is always looking for new [invention ideas](#). The company provides invention services and is one of the only invention companies that engineers and manufactures its own products. The company is broken into six operating divisions:

Patent Intelligence and Analytics * Prototypes and Manufacturing * Distribution and Retail * Digital Marketing and Social Media * Direct Response TV and Internet Video Production * Patent Licensing & Investments

As a global leader in the invention services industry, World Patent Marketing is by your side every step of the

way, utilizing its capital and experience to guide the invention process towards a successful product launch so you can be one of the next [World Patent Marketing Success Stories](#).

[World Patent Marketing Reviews](#) enjoy an A+ rating with the Better Business Bureau (World Patent Marketing BBB) and has earned five-star ratings from Google and consumer review sites such as Consumer Affairs, Trustpilot, Shopper Approved, Customer Lobby, ResellerRatings, My3Cents and World Patent Marketing Glassdoor.

The CEO of World Patent Marketing, Scott Cooper, is also a Director of The Cooper Idea Foundation is the founder of the New York Inventors Exchange and has also been a proud member of the National Association of Manufacturers, Duns and Bradstreet, the US Chamber of Commerce, the South Florida Chamber of Commerce, the Miami Beach Chamber of Commerce, the Greater Miami Chamber of Commerce, the Association for Manufacturing Excellence and the Society of Plastics Engineers.

Those who are wondering how hard is it to get a patent or how much does it cost to patent an idea, should contact the invention marketing experts.

World Patent Marketing credits its invention success to it's powerful and influential advisory board and its controversial “shock content” approach to [invention marketing](#).

To [submit invention ideas](#), contact World Patent Marketing at (888) 926-8174. Corporate headquarters located at 1680 Meridian Avenue, Miami Beach, Florida 33139.
