

## **World Patent Marketing Invention Team Presents The Seat Belt Buckle Pro, A Car Safety Invention That Will Help Protect Children**

*World Patent Marketing Reviews A New Car Safety Invention. Will The Seat Belt Buckle Pro Be the Next World Patent Marketing Low Cost Success Story?*

Miami, FL ([PRWEB](#)) December 09, 2016 -- World Patent Marketing, a vertically integrated manufacturer and engineer of patented products, introduces the Seat Belt Buckle Pro, a car safety invention that will help prevent children from being carelessly locked inside the car.

“The car safety industry is worth \$94 billion,” says Scott Cooper, CEO and Creative Director of World Patent Marketing. “This industry has seen considerable growth due to technological advances in cars and a growing concern for safety.”

“It’s become a common problem for parents to forget that their child was left in the car,” says Jerry Shapiro, Director of Manufacturing and World Patent Marketing Inventions. “This car safety invention will help protect these kids to make sure that nothing bad happens to them.”

The Seat Belt Buckle Pro is a car safety invention that will give drivers and parents peace of mind about child safety. Child endangerment is a common problem even in safe areas, so every step must be taken to protect children. This invention is a device that attaches to both ends of a seat belt. It has a sensor that monitors activity inside the car, including an alert and a smartphone app. The Seat Belt Buckle Pro can measure the temperature in the car and alert the driver if it is getting too hot or cold. If a child is left in the car, certain temperatures over time could be fatal for them. This invention will help save their lives. In addition, it also alerts the driver if the seatbelt is removed to prevent potential kidnappings that may occur. In either of these events, the parent is alerted and the police are immediately dispatched to deal with the scenario, giving the child a much greater likelihood of being found safe. This will give people an effective tool for dealing with potentially dangerous scenarios involving their children. The Seat Belt Buckle Pro will help protect them from both dangerous temperatures and kidnappings.

"I have spoken to many Law Enforcement Officers that have told me how many lives they could have saved if this system had already been on the market, and that this invention is a miracle in the making," says inventor Justin D. "I have also listened to parents on family radio discuss how many children have died from exposure to the elements because the interior of the vehicle, that the child was kept in, was either too hot or cold. They frequently asked why a device that monitors the interior temperature of a vehicle is not on the market. It's because it has not been invented yet; until now!"

The Seat Belt Buckle Pro is a car safety invention that helps protect any children left inside a car by contacting the police to ensure that they are rescued before anything bad happens.

About World Patent Marketing

[World Patent Marketing](#) is always looking for new [invention ideas](#). The company provides invention services and is one of the only invention companies that engineers and manufactures its own products. The company is broken into six operating divisions:

Patent Intelligence and Analytics \* Prototypes and Manufacturing \* Distribution and Retail \* Digital Marketing and Social Media \* Direct Response TV and Internet Video Production \* Patent Licensing & Investments

As a global leader in the invention services industry, World Patent Marketing is by your side every step of the way, utilizing its capital and experience to guide the invention process towards a successful product launch so you can be one of the next [World Patent Marketing Success Stories](#).

[World Patent Marketing Reviews](#) enjoy an A+ rating with the Better Business Bureau (World Patent Marketing BBB) and has earned five-star ratings from Google and consumer review sites such as Consumer Affairs, Trustpilot, Shopper Approved, Customer Lobby, ResellerRatings, My3Cents and World Patent Marketing Glassdoor.

The CEO of World Patent Marketing, Scott Cooper, is also a Director of The Cooper Idea Foundation is the founder of the New York Inventors Exchange and has also been a proud member of the National Association of Manufacturers, Duns and Bradstreet, the US Chamber of Commerce, the South Florida Chamber of Commerce, the Miami Beach Chamber of Commerce, the Greater Miami Chamber of Commerce, the Association for Manufacturing Excellence and the Society of Plastics Engineers.

Those who are wondering how hard is it to get a patent or how much does it cost to patent an idea, should contact the invention marketing experts.

World Patent Marketing credits its invention success to it's powerful and influential advisory board and its controversial “shock content” approach to [invention marketing](#).
