

No More Shattered Windows With World Patent Marketing's New Automotive Invention, The Window Replacement

World Patent Marketing Reviews A New Automotive Invention. Will Window Replacement Be the Next World Patent Marketing Low Cost Success Story?

Miami, FL ([PRWEB](#)) December 31, 2016 -- World Patent Marketing, a vertically integrated manufacturer and engineer of patented products, introduces Window Replacement, and automotive invention that allows people to provide a temporary fix for their car window.

“The global automotive industry is worth \$1.7 trillion,” says Scott Cooper, CEO and Creative Director of World Patent Marketing. “Internet-connected car technologies are starting to become an important part of vehicle manufacturing. People will be on the lookout for autonomous cars in the coming years to see if they prove safer than human drivers.”

“The windows are probably the easiest part of a car to cause significant damage to,” says Jerry Shapiro, Director of Manufacturing and World Patent Marketing Inventions. “A few bumps and scratches can be ignored but a broken windshield can’t be. This automotive invention gives people an easy way to replace their broken glass.”

Window Replacement is an automotive invention that makes things much more convenient for motorists. If a car’s window breaks, it must be immediately replaced in order to protect the car from the heat, rain, and theft. This invention is a replacement window that can be attached to the car without damaging the frame or the paint job. It will protect cars from weather and theft and is easily affordable. This device is a quick temporary solution that will allow the vehicle to still be drivable until proper repairs can be paid for. Window Replacement will help protect people’s cars until they can get repaired.

“Well, if you had a broken window and you wanted to file an insurance claim, your deductible is \$500 which you would not be able to file because it costs about \$250-300 to fix the window,” says inventor Donna C. “And if you were to use duct tape and plastic, it would ruin the paint on your vehicle and that would cost you more money to have your car painted.”

Window Replacement is an automotive invention that allows people to attach a spare window in the place of a broken one. This is a quick and easy fix that will hold people over until they can afford to pay for proper repairs.

ABOUT WORLD PATENT MARKETING

[World Patent Marketing](#) is always looking for new [invention ideas](#). The company provides invention services and is one of the only invention companies that engineers and manufactures its own products. The company is broken into six operating divisions:

Patent Intelligence and Analytics * Prototypes and Manufacturing * Distribution and Retail * Digital Marketing and Social Media * Direct Response TV and Internet Video Production * Patent Licensing & Investments

As a global leader in the invention services industry, World Patent Marketing is by your side every step of the

way, utilizing its capital and experience to guide the invention process towards a successful product launch so you can be one of the next [World Patent Marketing Success Stories](#).

[World Patent Marketing Reviews](#) enjoy an A+ rating with the Better Business Bureau (World Patent Marketing BBB) and has earned five-star ratings from Google and consumer review sites such as Consumer Affairs, Trustpilot, Shopper Approved, Customer Lobby, ResellerRatings, My3Cents and World Patent Marketing Glassdoor.

The CEO of World Patent Marketing, Scott Cooper, is also a Director of The Cooper Idea Foundation is the founder of the New York Inventors Exchange and has also been a proud member of the National Association of Manufacturers, Duns and Bradstreet, the US Chamber of Commerce, the South Florida Chamber of Commerce, the Miami Beach Chamber of Commerce, the Greater Miami Chamber of Commerce, the Association for Manufacturing Excellence and the Society of Plastics Engineers.

Those who are wondering how hard is it to get a patent or how much does it cost to patent an idea, should contact the invention marketing experts.

World Patent Marketing credits its invention success to it's powerful and influential advisory board and its controversial "shock content" approach to [invention marketing](#).
