

Riverfront Automotive Group Delivers on Credit

Riverfront Automotive Group will open its doors as Cuyahoga Falls' premier pre-owned superstore. Located at 2355 North Front Street, Riverfront Automotive is geared to providing guaranteed financing regardless of a buyer's credit history.

Cuyahoga Falls, OH ([PRWEB](#)) July 22, 2005 -- Riverfront Automotive Group will open its doors as Cuyahoga Falls' premier pre-owned superstore. Located at 2355 North Front Street, Riverfront Automotive is geared to providing guaranteed financing regardless of a buyer's credit history.

"Riverfront Automotive is not just about selling and servicing cars," said Anthony J. Hodel, Riverfront's President. "We recognize the opportunity to change lives by helping people help themselves through understanding the credit repair process." Hodel noted that the first step to providing for oneself and one's family is reliable transportation. So Riverfront's primary concern is to help navigate customers through "the credit maze and get them on track to owning a home, obtaining a credit card and putting their children through college."

Riverfront Automotive boasts a great selection of pre-owned vehicles along with a 14-bay service facility, a quick oil change center and a professional detail center and customization shop. "They've given a whole new look to the Riverfront area," said Cuyahoga Falls Mayor John Doe. "It goes without saying that a legitimate automotive business with a goal of helping our residents will have a major impact on our city."

Riverfront's auto repair services are performed by a team of ASE-certified technicians providing the same quality of work as a new car dealer at a savings of 30% or more. "Our staff is trained to offer the highest quality solution at the lowest cost possible," claimed Hodel. "These technicians are paid to fix cars, not sell you things you do not need." Riverfront's "quick oil change" currently runs only \$12.95.

Hodel, a 16-year automotive veteran, is an inductee of the 'Who's Who International Directory,' has been named Wall Street Journal Businessman of the Year for 2002, 2003 and 2004 and 2005 received the 2002 Ernest & Young Entrepreneur of the Year award and was named to the 2002 Case Western Weatherhead 100. He is also on the 2005 Ohio Advisory of the National Republican Congressional Committee. Hodel is also serves as CEO of a national automotive financial service company.
