

Motor Home Specialist Inc. Has Just Become the Newest Retailer for the Legendary Blue Bird Wanderlodge RV

Since 1927, Blue Bird Corporation has provided safe transportation for our school children across the country and since 1963 have built one of the premier luxury RVs in the industry.

Alvarado, TX ([PRWEB](#)) December 7, 2005 -- Motor Home Specialist Inc. has just become the newest retailer for the legendary Blue Bird Wanderlodge. Since 1927 Blue Bird Corporation has provided safe transportation for our school children across the country and since 1963 have built one of the premier luxury RVs in the industry.

Each Blue Bird Wanderlodge is hand built with the finest materials and most luxurious appointments. Their solid steel frames and stainless steel construction provide superior strength and safety. The custom built chassis of the Blue Bird Coach were designed by some of the top engineers in the industry and delivers a ride and drive unlike any other motor coach on the road today.

It's your dream come true -- a classic Wanderlodge Motor Coach that delivers unparalleled luxury and styling. While other coaches may give you the option of customizing luxury, we think it should come standard. Our 450 LXi doesn't disappoint. From the designer cabinetry...to lavish appointments... to the state-of-the-art sound system...no detail has been spared. The sturdy integrated steel body/chassis construction ensures more structural integrity than fiberglass motorhomes. And the new independent front suspension system-with a 54° turning angle-allows you to maneuver wherever your dreams take you.

You can learn more about these incredible coaches at Motor Home Specialist Inc. website www.mhsrv.com or feel free to contact a representative at 800-335-6054.
