

Get Away From it all by Campervan

Exploring Scotland by campervan is growing in popularity. Freedom Campervans have launched a hire service dedicated to couples flying to Scotland on low cost flights.

([PRWEB](#)) December 4, 2005 -- A specialist campervan hire company is expanding its operation in Scotland. Founded by brothers Robert & Mike McCandless - Freedom Campervans offers smart modern 2-berth campervans for hire in Scotland. The service has been specially designed to meet the needs of couples arriving by plane with free airport transfers, collection & return any day of the week, plus duvets, linen and towels all included.

The campervans are very different from those ugly big blot-on-the-landscape motorhomes you normally see at the front of a traffic jam, and bear almost no relation to Jamies old VW Combi van which finally broke down in Italy. Freedom Campervans vehicles are small, agile, economical and easy to drive around the toughest roads in Scotland, helping you to truly get away from it all and discover this beautiful country for yourself.

Comfort is built-in to these campervans with running water, fridges, cooking facilities, heating and proper sized beds. In the Deluxe models there is even room for a shower, proper toilet & flat screen TV.

"...quiet, spacious and in a lovely location right on the beach, we had breakfast while watching the dolphins from our campervan... great" - quote from guest in June 2006.
