VISIT FLORIDA, the state's official source for travel planning, recently announced that Florida tourism is thriving. An estimated 21.9 million visitors came to Florida during the July-September period, according to preliminary estimates. The sunshine state remains on track to surpass the 80 million visitor mark this year, which would be a new record. That's good news for Florida guided tour operators featuring the Segway HT and the new Segway XT.

With its year-round warm temperatures and abundant tourism opportunities, the state of Florida boasts the largest number of guided tours utilizing the Segway. Currently, fifteen (15) of the one hundred tours listed in the directory are located in Florida. Locations include Orlando, Naples, Sarasota, and St. Petersburg to name a few. California holds second place with ten (10) guided tour locations. In addition to US locations, the directory features tours worldwide in areas such as Australia, Madrid, Paris and the United Kingdom.

The Segway Human Transporter was first demonstrated on December 3, 2001. Four years after its introduction, the Segway HT has added a new twist to guided tours of popular tourist destinations and historical cities.
