([PRWEB](#)) December 10, 2005 -- The Boston Globe newspaper named the 2006 Hyundai Sonata its "Family Vehicle of the Year."

Sonata's excellent value, good fuel economy and segment-leading standard safety features, such as Electronic Stability Control (ESC), six airbags, and anti-whiplash head restraints plays a key role in the New England Motor Press Association's decision.

The New England Motor Press Association reviewed the entire spectrum of new family vehicles to provide its readers with information they need to make the right choice in today's complicated automotive landscape.

The all-new 2006 Hyundai Sonata also earned the "Best in Class" and "Best New Car" acclaims from Kiplinger's Personal Finance magazine. The awards, published in the December 2005 issue, came with high praise for the Sonata.

The Hyundai Sonata was picked the winner from more than 45 new models vying for the awards in the \$18,000 - \$23,000 car category, ahead of competitors such as the Toyota Camry, Honda Accord, Nissan Altima, and Ford Fusion.

The 2006 Sonata sets new standards in active and passive safety, an accomplishment also recognized by an Automotive Excellence award in the safety category from Popular Mechanics magazine.
