

Goldkart Releases Low Cost, International Race-Winning Kart In Australia

Goldkart's international race winning "Typhoon" now available in Australia and targeted at customers wanting a high quality, race proven kart, at a budget price. Goldkart aims to make karting more affordable in Australia with quality products.

Sydney, NSW ([PRWEB](http://www.prweb.com)) July 29, 2005 -- Goldkart has made international race-winning "Typhoon" available in Australia for \$2,495. (Rolling chassis).

The Goldkart Typhoon is priced to meet the needs of the price conscious. Only one hundred remain at this price and are selling real fast. Standard features include a 50mm rear axle, 30mm frame, suede steering wheel, front, mid and rear torsion bars. Color choices include blue, red or black.

"Typhoon" has been driven to local, national and international race victories in Italy, England, Germany, Denmark, Holland, USA and Australia.

The "Typhoon" provides a lower cost of ownership because it can use aftermarket replacement parts from most of the major kart brands as it is built using industry standard sized components.

The "Typhoon" performs best with Rotax, Leopard or Clubman type engines but can use any popular engine brand.

The "Typhoon" is available at Goldkart's Sydney warehouse or also can be purchased through one of its dealers.

For additional information on the news that is the subject of this release (or to see a "Typhoon"), contact Marilyn Roy or visit www.goldkart.com.au
