

Research and Markets: Keep Up-to-Date with the Latest Global Happenings in the Field of Vehicle Component Manufacturing

Dublin ([PRWEB](#)) August 3, 2005 -- Research and Markets (<http://www.researchandmarkets.com/reports/c21654>) has announced the addition of Automotive Emerging Markets to their offering

Automotive Emerging Markets is a dedicated round-up of all the latest global happenings and analysis specific to the activities of the world's vehicle and component manufacturers in Central and Eastern Europe, South America, Africa, Middle East, Pacific Rim and of course the Indian sub-continent and China.

This report deals with the dynamic world of some of the fastest growing automotive markets. From China to Russia to India to Indonesia, the scope of this report is both vast and inclusive. AEM covers all aspects of the automotive industries in some of the most vibrant markets, including manufacturing, model launches, manufacturer strategies, market data such as sales and production figures. It focuses on not just vehicle manufacturers but also covers component manufacturers, ensuring that nothing goes unreported on the channel. Key markets include the more obvious ones such as China, India and Russia, plus other countries such as Thailand, Malaysia, Poland, the Czech Republic and South Africa.

Automotive Emerging Markets provides both broad macro-economic information as well as detailed focus analysis down to vehicle or supplier level: there is no better way to stay informed on the latest emerging market developments.
