NASHVILLE, Tenn. ([PRWEB](#)) October 28, 2022 -- [Carl Black Chevrolet](#) has taken many new 2023 Chevy models into its extensive inventory of cars, trucks, and SUVs. Some of the 2023 models available now include the Blazer, Bolt EV and EUV, Malibu, Camaro, Equinox, Traverse, Silverado 1500 and 2500, Tahoe, Suburban, and the powerful mid-engine Corvette Stingray. Below we will examine two of the current offerings – the Camaro and the Traverse.

[2023 Chevy Camaro](#)

Few cars qualify as true muscle cars. The Chevy Camaro more than qualifies – it shaped the class of cars into what it is today. Now, the Camaro comes in a wide array of trim levels and powertrain options. Some features you can expect from this performance vehicle include:

- Available Brembo brakes for extraordinary stopping power.
- Outstanding drift-ability with standard RWD (rear wheel drive).
- An available 6.2L V8 that produces a remarkable 455 horsepower and 455 foot-pounds of torque.

[2023 Chevy Traverse](#)

Full-sized SUVs are in high demand, as they provide extraordinary utility and flexibility. The Traverse is a standout in the category, as it provides luxurious appointments, high performance, and low pricing all in the same package. Standard features include:

- 3.6L V6 with 310 horsepower.
- 9-speed automatic transmission.
- Up to 5,000 pounds towing capacity.
