

Johnstech to Show Automotive Test Solutions at Semicon EUROPA 2022

Johnstech International, a global leader in the semiconductor test industry, will show their portfolio of automotive test solutions at Semicon Europa 2022 in Munich, Germany.

MUNICH, Germany ([PRWEB](#)) October 26, 2022 -- Johnstech International, a global leader in the semiconductor test industry, will show their portfolio of automotive test solutions at Semicon Europa 2022 in Munich, Germany. For over three decades Johnstech has provided the best solutions for RF, mixed signal analog, power, sensor, or high-speed digital devices—all supported by internal manufacturing, a world-class field service team, and a reliable supply chain.

Johnstech VP, Global Engineering, Marketing, Sales & Service Bob Chartrand explains the company's commitment to service and pushing the envelope to enable the next generation in technology. "For over three decades, we've provided 'future forward' test solutions for our customers ahead of market need. We understand that complex problems deserve high-performance solutions."

"Johnstech customers know that they will receive premium test solutions and services that accurately and consistently replicate device specifications – a 'must have' for the ongoing challenges for both automotive and 5G devices." says Chartrand. "From our ground-breaking ROL technology to spring probes, Johnstech has created a product portfolio that can meet our customers' most challenging requirements and exceed their expectations."

Johnstech International will be at Semicon Europa, November 15th to 18th at booth #C1-856.

JOHNSTECH INTERNATIONAL is a global R&D leader in the field of microcircuit testing, providing reliable, cost-effective testing solutions for automotive, commercial, and industrial applications. Founded in 1991 by David Johnson, Johnstech works together with the world's most respected OSATs, foundries, and EDA companies to develop the most precise and dependable test contactors and test sockets on the marketplace today.
