

SAE International Brings Key Stakeholders Together at Annual Government/Industry Meeting; Jan. 17-19, 2023

Environmental/Energy Conservation and Safety Among Critical Industry Issues to be Addressed

WARRENDALE, Pa. ([PRWEB](#)) October 19, 2022 -- SAE International's annual Government/Industry Meeting (GIM) will take place in Washington, D.C., Jan. 17-19, 2023. Co-located with the Washington, D.C., Auto Show, this highly regarded annual conference connects government policy and regulatory makers with automotive professionals to discuss critical issues impacting the mobility industry.

Key topics include industry safety areas related to electric vehicle (EV) batteries, occupant protection and vulnerable road users, as well as vehicle data - including NHTSA's event data recording requirements. Additional topics to be discussed include environmental and energy conservation efforts such as decarbonization, EV charging interoperability and battery life cycle and recycling.

"SAE's Government/Industry Meeting is unique in that it takes an open-forum approach to exploring current areas of critical importance to the mobility industry, including safety, emissions, fuel efficiency, and automated vehicles," said Frank Bokulich, senior manager, events - engineering events, at SAE International. "This convergence serves as a neutral forum for industry experts to join government officials and policy makers to explore innovative solutions impacting global economy and sustainability efforts."

This event offers opportunities for attendees to:

- Engage with leading government agency employees, mobility OEMs and suppliers
- Gain critical insights on the direction of government policies and regulations
- Contribute to the dialogue that sets the course for the industry's future

SAE's GIM also encourages participants to network and collaborate with industry colleagues through lunch roundtables and dedicated networking sessions.

NOTE: Federal and State employees are eligible for FREE registration with appropriate identification. In addition, all registered participants receive early access to the Washington, D.C. Auto Show.

To register for the 2023 GIM event, visit <https://www.sae.org/attend/government-industry/registration>.

About SAE International

SAE International is a global organization committed to advancing mobility knowledge and solutions for the benefit of humanity. By engaging nearly 200,000 engineers, technical experts and volunteers, we connect and educate mobility professionals to enable safe, clean, and accessible mobility solutions. We act on two priorities: encouraging a lifetime of learning for mobility engineering professionals and setting the standards for industry engineering. We strive for a better world through the work of our philanthropic SAE Foundation, including award-winning programs like A World In Motion® and the Collegiate Design Series™.
